

January 2019 CUE Report

Items passed by CUE by the end of December 2018 are given below.

Curriculum Updates

1. BME
 - (a) B.S. in Biomedical Engineering
 - i. Location of BME 111 and the CS GER course swapped in the curriculum grids for each track.
 - ii. Program credits are unchanged for each track.

2. Biology & Chemistry
 - (a) B.S. in Biology and Chemistry (double major)
 - i. Eliminate 8 credits of social sciences and PE to reflect new GER
 - ii. Chem 124 replaced with Chem 125A and Chem 126A
 - iii. Chemistry elective replaced by Chem 340
 - iv. Courses rearranged to balance student load and reflect current offering patterns
 - v. Program now required 129-130 credits

3. GER Update
 - (a) R512:364 should be grandfathered as a History and Humanities 300+ level GER course. (This course was inadvertently omitted when the list of grandfathered courses was compiled during AY18/19.)

New Courses and Other Course Updates

1. Biology: New courses: Biol 201, Biol 202, and Biol 498. Prerequisite change for Biol 453. Prerequisite and title change for Biol 321. Sunset Biol 285.
2. Humanities: Title and description updates for STS 347 and STS 349.
3. CS: Course number, title, and prerequisite change for CS 252. Prerequisite change for CS 288. Course number change for CS 431. Title change for CS 486.
4. ET: Prerequisite change for ECET 400.
